

## Molecular Diversity

### INSTRUCTIONS FOR AUTHORS

#### EDITOR

**Dr. Shu-Kun Lin**, Molecular Diversity Preservation International (MDPI), Matthaeusstrasse 11, CH-4057, Basel, Switzerland.  
Tel: +41 79322 3379; Fax: +41 61302 8918; E-mail: modi@mdpi.org (<http://www.mdpi.org/lin>)

#### AIMS AND SCOPE

*Molecular Diversity* is a publication forum for the rapid publication of refereed papers dedicated to describing the development, application and theory of molecular diversity and combinatorial chemistry in basic and applied research and drug discovery. The journal publishes both short and full papers, perspectives, news and reviews dealing with all aspects of the generation of molecular diversity, application of diversity for screening against alternative targets of all types (biological, biophysical, technological), analysis of results obtained and their application in various scientific disciplines/approaches including:

- combinatorial chemistry and parallel synthesis
- small molecule libraries
- peptides
- proteins
- oligonucleotides
- carbohydrates
- structure/function/SAR
- computational chemistry/molecular design
- screening techniques and screening interfaces
- analytical methods
- robotics/automation/miniaturization
- new approaches/methods of library formulation and deconvolution
- directed evolution/origin of life/recombination
- theory (search techniques, landscapes, random chemistry)

#### Manuscript Submission

##### Online Manuscript Submission

*Molecular Diversity* has a fully web-enabled manuscript submission and review system. This system offers authors the option of tracking in real time the review process of their manuscripts. The online manuscript and review system offers easy and straightforward log-in and submission procedures. It supports a wide range of submission file formats, including Word, WordPerfect, RTF, TXT and LaTeX for article text and TIFF, EPS, PS, GIF, JPEG and PPT for figures. PDF is not a recommended format.

Manuscripts should be submitted to:

<http://modi.edmgr.com>

Authors are requested to download the Consent to Publish and Transfer of Copyright form from this system. Please send a completed and signed form either by mail or fax to the *Molecular Diversity* Office.

**NOTE:** By using the online manuscript submission and review system, it is NOT necessary to submit the manuscript also as printout + disk. In case you encounter any difficulties while submitting your manuscript online, please get in touch with the responsible Editorial Assistant by clicking on “CONTACT US” from the toolbar.

***Electronic figures***

Electronic versions of your figures must be supplied. For vector graphics, EPS is the preferred format. For bitmapped graphics, TIFF is the preferred format. The following resolutions are optimal: line figures – 600 – 1200 dpi; photographs – 300 dpi; screen dumps – leave as is. Colour figures can be submitted in the RGB colour system. Font-related problems can be avoided by using standard fonts such as Times Roman, Courier and Helvetica.

***Colour figures***

Springer charges authors for the reproduction of colour figures in print. Colour reproduction in the online version of the journal, however, is free of charge.

***Language***

We appreciate any efforts that you make to ensure that the language is corrected before submission. This will greatly improve the legibility of your paper if English is not your first language.

**Manuscript Presentation**

Please double-space all material, including notes and references. Quotations of more than 40 words should be set off clearly, either by indenting the left-hand margin or by using a smaller typeface. Use double quotation marks for direct quotations and single quotation marks for quotations within quotations and for words or phrases used in a special sense.

Number the pages consecutively with the first page containing:

- running head (shortened title)
- title
- author(s)
- affiliation(s)
- full address for correspondence, including telephone and fax numbers and e-mail address

**Abstract**

Please provide a short abstract of 100 to 250 words. The abstract should not contain any undefined abbreviations or unspecified references.

**Key Words**

Please provide 5 to 10 key words or short phrases in alphabetical order.

**Abbreviations**

Abbreviations and their explanations should be collected in a list.

**Article Types**

Full-length papers, short communications, perspectives and reviews.

**Symbols and Units**

SI units should be used. All nomenclature should be consistent, conforming to the recommendations of the International Union of Pure and Applied Chemistry, International Union of Biochemistry, and other appropriate bodies.

## Section Headings

First-, second-, third- and fourth-order headings should be clearly distinguishable but not numbered.

## Appendices

Supplementary material should be collected in an Appendix and placed after the References.

## Notes

Please use footnotes rather than endnotes. Notes should be indicated by consecutive superscript numbers in the text. A source reference note should be indicated by means of an asterisk after the title. This note should be placed at the bottom of the first page.

## Cross-Referencing

In the text, a reference identified by means of an authors name should be followed by the reference number in square brackets.

*Examples:*

Winograd [1]

Bullen and Bennett [2]

## Acknowledgements

Acknowledgements of people, grants, funds, etc. should be placed in a separate section before the References.

## References

References to books, journal articles, articles in collections and conference or workshop proceedings, and technical reports should be listed at the end of the article in **numbered** order.

Articles in preparation or articles submitted for publication, unpublished observations, personal communications, etc. should not be included in the reference list but should only be mentioned in the article text (e.g., T. Moore, personal communication).

References to books should include the authors name; title; publisher; place of publication; year of publication; page numbers where appropriate, see the example below.

3. Kubinyi, H. (Ed.) 3D QSAR in Drug Design: Theory, Methods and Applications, ESCOM, Leiden, 1993.

References to articles in an edited collection should include the authors name(s); article title in italics; editors name; title of collection; publisher; place of publication; year of publication; first and last page numbers, see the example below.

16. Langer, T., *Molecular similarity characterization using CoMFA*, In Kubinyi, H., Folkers, G. and Martin, Y.C. (Eds.) 3D QSAR in Drug Design, Vol. 3: Recent Advances, Springer, Dordrecht, 1998, pp. 215–231.

References to articles in conference proceedings should include the authors name(s); article title in italics; editors name (if any); title of proceedings; place and date of conference; publisher and/or organization from whom the proceedings can be obtained; place of publication; year of publication; first and last page numbers, see the example below.

7. Hsieh, K.-h. and Marshall, G.R., *A double-bond-containing angiotensin and its derivatization into linear vs. branched analogs*, In Tarn, J.P. and Kaumaya, P.T.P. (Eds.), *Peptides: Frontiers of Peptide Science (Proceedings of the 15th American Peptide Symposium)*, Nashville, TN, June 14–19, 1997, Springer, Dordrecht, 1999, pp. 63–64.

References to articles in periodicals should include the authors name; article title in italics; abbreviated title of periodical; volume number; year of publication; first and last page numbers, see the example below.

11. Hutchins, S.M. and Chapman, K.T., *A general method for solid phase synthesis of ureas*, *Tetrahedron Lett.*, 35 (1994) 4055–4058.

References to technical reports or doctoral dissertations should include the authors name; title of report or dissertation in italics; institution; location of institution; year of publication, see the example below.

4. Aslam Noor, M., *Theory of Variational Inequalities*, Lecture Notes, Mathematics Department, King Sand University, Riyadh, 1996.

## Figures

All photographs, graphs and diagrams should be referred to as a Figure and they should be numbered consecutively (1, 2, etc.). Multi-part figures ought to be labelled with lower case letters (a, b, etc.). Please insert keys and scale bars directly in the figures. Relatively small text and great variation in text sizes within figures should be avoided as figures are often reduced in size. Figures may be sized to fit approximately within the column(s) of the journal. Provide a detailed legend (without abbreviations) to each figure, refer to the figure in the text and indicate its approximate location. Please place the legends in the manuscript after the references.

## Tables

Each table should be numbered consecutively (1, 2, etc.). In tables, footnotes are preferable to long explanatory material in either the heading or body of the table. Such explanatory footnotes, identified by superscript letters, should be placed immediately below the table. Please provide a caption (without abbreviations) to each table, refer to the table in the text and indicate its approximate location. Finally, please place the tables after the figure legends in the manuscript.

## Proofs

Proofs will be sent to the corresponding author by e-mail (if no e-mail address is available or appears to be out of order, proofs will be sent by regular mail).

Your response, with or without corrections, should be sent within 72 hours. Please do not make any corrections to the PDF file. Minor corrections (10) should be sent as an e-mail attachment. Always quote the journal code and article number of your proof in the subject field of your e-mail.

Extensive corrections must be clearly marked on a printout of the PDF-file and should be sent by first-class mail (airmail overseas).

## Offprints

Fifty offprints of each article will be provided free of charge. Additional offprints (both hard copies and PDF files) can be ordered by means of an offprint order form supplied with the proofs.

## Page Charges and Colour Illustrations

No page charges are levied on authors or their institutions. The author will be contacted regarding costs and invoicing if the manuscript includes colour figures. Colour reproduction in the online version of the journal is free.

## Copyright

Authors will be asked, upon acceptance of an article, to transfer copyright of the article to the Publisher. This will ensure the widest possible dissemination of information under copyright laws.

## Permissions

It is the responsibility of the author to obtain written permission for a quotation from unpublished material, or for all quotations in excess of 250 words in one extract or 500 words in total from any work still in copyright, and for the reprinting of figures, tables or poems from unpublished or copyrighted material.

**Springer Open Choice**

In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Springer now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular subscription-based article, but in addition is made available publicly through Springers online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit [www.springeronline.com/openchoice](http://www.springeronline.com/openchoice) to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will publish as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.
