

SYMPOSIUM ON COMPUTED TOMOGRAPHY IN RADIOTHERAPY

18–19 September 1981, Arlington Hyatt House Hotel, Arlington, Virginia (Washington, DC), sponsored by American Association of Physicists in Medicine and Mid-Atlantic Chapter, AAPM.

This symposium will provide a forum for a multidisciplinary interchange between clinicians, physicists and computer scientists on the applications of Computed Tomography in Radiotherapy. A series of invited papers will deal with the clinical, technical and dosimetric aspects of CT data utilization in therapy planning.

RADIOLOGY IN STRATFORD-UPON-AVON with The University of Connecticut

The University of Connecticut is pleased to announce their third postgraduate radiology symposium. This will be held in the Hilton International Hotel, Stratford-Upon-Avon, Warwickshire, England, from September 19–25, 1981. Joining the University of Connecticut will be the Department of Radiology at Oxford University and the Radcliffe Infirmary and John Radcliffe Hospital, Oxford.

Topics to be discussed will include recent advances in the diagnosis of diseases of the central nervous system, chest, gastrointestinal tract, genitourinary tract and childhood. Ultrasonography including realtime, computerized tomography and digital subtraction angiography will be strongly featured as will interventional and therapeutic radiological procedures. Application has been made for 38 hours of AMA accreditation.

As well as didactic lectures, there will be working lunches and workshops which will allow time to examine various topics in depth and allow ample opportunity for questions and answers.

There will be a session devoted to proffered papers of 10 minutes duration. These will be in English and special consideration will be given to those papers pertaining to the above mentioned topics.

Comprehensive social and ladies programs have been planned. These include visits to Shakespeare's birthplace, Blenheim Castle, birthplace of Sir Winston Churchill, Oxford University, Sulgrave Manor, ancestral home of George Washington, Coventry Cathedral, Worcester Porcelain Factory, and the Cotswold hills. There will also be a post convention tour of London and another around England and Scotland.

DIAGNOSTIC RADIOLOGY INCLUDING ULTRASOUND, CT SCANNING AND NUCLEAR MEDICINE

Duke Medical Center PG course "Diagnostic Radiology including Ultrasound, CT Scanning and Nuclear Medicine", July 27–August 1, 1981, Atlantic Beach, North Carolina. Registration Fee: \$250 (U.S. dollars); \$125 for those in training if accompanied by a letter from your department chairman. Cancellation will be subject to a \$25.00 fee for handling costs.

This 6-day postgraduate meeting will be presented by the faculty of the Department of Radiology, Duke University Medical Center and is designed for radiologists but open to other physicians whether in training or practice.

The scientific sessions will broadly cover adult and pediatric Diagnostic Radiology including Ultrasound, CT Scanning and Nuclear Medicine. There will be ample opportunity for discussion. A detailed program and abstract book will be given to the registrants later. Category I: 30 hours.
