**Synthesis of Phenyl 2-Azido-2-deoxy-1-selenoglycosides from Glycals.**

— Azidophenylselenation of glycals, e.g. (I), (V) and (VIII), is a regioselective process which is also stereospecific in the case of (VIII). The products may be used as glycosyl donors. — (SANTOYO-GONZALEZ, F.; CALVO-FLORES, F. G.; GARCIA-MENDOZA, P.; HERNANDEZ-MATEO, F.; ISAC-GARCIA, J.; ROBLES-DIAZ, R.; J. Org.
