

organo-tellurium compounds, acyclic O,N,S derivatives

S 0141

04 - 215

Azido and Dimethylamino Derivatives of Tellurium Hexafluoride.

— A ^{19}F NMR spectroscopic investigation reveals that the reaction of TeF_6 with Me_3SiN_3 or $\text{Me}_3\text{SiNMe}_2$ gives all members of the series of substitution products except the meridial tris-substitution product. — (GORRELL, I. B.; LUDMAN, C. J.; MATTHEWS, R. S.; J. Chem. Soc., Dalton Trans. (1992) 19, 2899-2903; Dep. Chem., Univ. Sci. Lab., Durham DH1 3LE, UK; EN)
